NO GOSSIP POLICY In the workplace, gossip is an activity that can drain, distract and downshift employee job satisfaction. We all have participated in this, yet most of us say we don't like it. In order to create a more professional workplace, we the undersigned are making a commitment to change our atmosphere to be gossip free. gos-sip n.

An unexpected downshift to 1st gear can cause the vehicle to slow down suddenly and without warning. This can also cause the rear tires to skid or lock up, increasing the risk of a crash. Ford recalled vehicles built between certain production dates to address this defect.

downshift request with the Transmission Driver Interface Device, if the system allows. The system automatically selects the Drive start gear based on vehicle operating conditions. † The driver may request a gear change while driving using the upshift/ downshift request with the Transmission Driver Interface Device when

the right moment to upshift or downshift during the changing road and traf?c conditions. The Allison automatic does it for you. A knowledge of the ranges available at your shift selector will make control of the vehicle and your job even easier. When the shift selector has no P (Park) provision, always put the selector in N

During an upshift or downshift the gear display may momentarily flash the tar-get gear position. The "DASH" indicates the transmission may be torque locked in gear. See "Service and Maintenance Locked in Gear" section for more details. "CA" will appear in the gear display if a clutch abuse event is occurring.

Function of the TV Cable: Many people believe that this is a detent downshift cable and that this is the only function that the cable performs. In actuality, the TV Cable controls line pressures, shift points, part throttle downshifts and detent downshifts. The cable functions similarly to the combination vacuum modulator/cable systems found on
