Murray: *Medical Microbiology, 6th Edition Chapter 02: Bacterial Classification, Structure, and Replication Test Bank MULTIPLE CHOICE* 1. Teichoic acids, mycolic acids, peptidoglycan, and disaccharide-pentapeptide subunits are all building blocks of which bacterial structure? a. Outer cell membrane b. Flagella c. Inner cell membrane d. Cell wall

This sixth edition not only confirms the book's pre-eminence but manages to extend it. The writing is very clear and the chapters progress as a narrative, making the experience not only interesting, but also managing to place everything into an appropriate context. Importantly, the information is also very much up to date: for example, the
