2. **TECHNICAL WRITING** Technical writing is direct, informative, clear, and concise language written specifically for an identified audience. The content must be accurate and complete with no exaggerations. To deliver the intended message, the text must be objective and persuasive without being argumentative. Developing technical

Style guides and guidelines Required “on top of” DITA or any other standard(s) NOT: your corporate identity manual (formatting) Style guides: English Dutch Microsoft Manual of Style for Technical Publications (MSTP) Microsoft Language Portal Apple Publications Style Guide Onze Taal IBM Style VRTtaal.net

Technical Writing program at the Massachusetts Institute of Technology. That was it! Technical writing ... that is what I wanted to do. And so the job hunt began. After searching for a position as a scientific technical writer, I was hired for a job as the technical writer for a software development company and started four weeks after graduation.
